the martini

during the twentieth century it became an american icon and was revered by such men as franklin d. roosevelt, winston churchill and ernest

hemingway. in our humble opinions, the simplicity is the genius.

as a house style we will serve you an extra dry martini. you will notice only a hint of vermouth, therefore your choice of spirit will be vital to your enjoyment of the cocktail.

martinis are served to your liking, whether it be on the rocks or straight up, with a twist or olive to garnish. if you care for a variation, try a dirty martini, with olive brine. possibly even a gibson, with a pair of cocktail onions.

the most popular origin story for the negroni, is that it was invented in florence, italy in 1919, at caffè casoni when a count camillo negroni requested from the bartender that he add gin to his favourite drink, the americano. It is comprised of equal parts of gin, martini rosso, and campari.

brandy alexander

a sweeter brandy based cocktail, devised in the early twentieth century, supposedly created at the time of the wedding of the princess royal and viscount lascelles, in london, in 1922. it is comprised of hennessey fine de cognac, dark crème de cacao and double cream.

born with a truly unknown origin, however, as with all great cocktails many stories arise and many names are thrown around. we will simply define it by its ingredients; belvedere cyrus, cointreau, fresh lime juice and a bit of cranberry juice.
